Motion by Moore and seconded by Bergman to retain a financial advisor for a cost not to exceed \$17,000. Rolf to sign as chairman on behalf of the Lake Board. Roll call vote and all in favor.

Public Comment:

Lake property owner Mike Weavers suggested that lake board meeting agendas and notices be posted on the website along with lake board financial reports and suggested that the website be reformatted to make it less difficult to navigate and to find information. He further suggested that bulleting items may be an effective way to communicate.

Nash noted that the lake treatment schedule should be clearly stated so residents know when to expect treatments.

Rolf had visited several stores in the area to check on availability of phosphorus-free fertilizers and reported that all appeared to have phosphorus-free fertilizers in stock. A general discussion ensued about how best to inform lake residents of lake board activities and what property owners can do to protect the lake. Several suggestions were made on how to best inform residents of pending treatments including possible email or text notifications and/or a mailing. Various alternatives to be discussed at the next meeting.

Next Meeting Date: Date to be determined.

Meeting Adjourned at 5:35 pm.
